U.S. NAVY REINFORCED TO FULL STRENGTH

Kill German Seaport Bombed By R.A.F.

Bremen Given Rain Of Bombs During Attack

Tons Of High Explosives Dropped On Port During Attack—Wilhelmshaven Also Bombed During Night

LONDON, Oct. 9.—Tons of high explosives and hundreds of incendiary bombs were dropped last night on the vital German seaport of Bremen, the air ministry announced today.

Royal Air Force bombers ranged over Bremen and the naval base at Wilhelmshaven, as well as inland German cities and towns and the already badly battered coastal invasion bases.

The attack on Bremen lasted more than half an hour, the air ministry said. Time and time again the R.A.F. unleashed showers of bombs.

The air was filled with debris from explosions and fires broke out in the area.

BUILDING EXPLODES
Oil refineries at Gelsenkirchen, in the industrial Ruhr Valley, the ship munition plant at Essen, a metal works at Hamm, a Kell power station and the Fokker aircraft factory at Amsterdam were raided.

One pilot who took part in the Bremen attack said he saw flames which shortly exploded, sending broken timbers and pieces of steel high in the air. Long after he and the others had started for home he said they could see new fires break out.

The air ministry said the raid on Wilhelmshaven was "equally punishing" in spite of intense anti-aircraft fire. More than 15 tons of bombs were dumped on the naval base.

LUNDS PURSUERS
One pilot reported to the ministry that a unidentified plane showing dim navigation lights followed him as he was flying about 100 feet above the British islands off the Netherlands coast. Another plane joined his pursuer and both closed in on him. He dove to 8,000 feet, swiftly changed course and evaded them.

Freight yards at Mannheim and Gernsbach, and several German airbases, as well as the channel ports, were raided. All the planes returned safely.

From Calais to Boulogne, spouting columns of flame glowing red against the dark night, the British bombers hit the German coast.

RUSSIAN INTERVENTION
But if Japan were weakened and cut off from the Asian mainland in a prolonged war, with Germany normally preoccupied in the East, Russian intervention would become almost a certainty. How to guard against this stroke must occupy Japan's attention before Tokyo risks adding a second war to the present conflict in China.

Whether, indeed, there can be any real assurance of Russia's future action satisfactory to the Japanese is questionable. Nevertheless, it would seem that strategic preparations for a Pacific war require efforts in the direction before that delay the most serious of the risks that may befall Japan.

It is reasonable to expect that delay the most serious of the risks that may befall Japan. It is reasonable to expect that delay the most serious of the risks that may befall Japan.

There is, too, a problem in strategy. It is reasonable to expect that delay the most serious of the risks that may befall Japan.

They Answer Country's Call To Service
Happy and eager to get down to their first taste of military training, 300 recruits left Edmonton's C.N.R. depot Wednesday morning for Camrose. In No. 1, left to right, are shown Reg. Kiriloff, Edna Southall, Alan McQuay, Gordon Watson, Henry Wilbur, Gerard Doherty and David Lendrum, all of Edmonton, who they said they did not know what they were going to, but did not much care, as they were "sure we can take anything that comes along." No. 2 shows a general view of the hundreds who came to the station to send off the first recruits to Canada's army under the National War Services Act. In No. 3 are left to right, Art Church, Harry Broadhead, Sam Lees, Tim Tymchuk and B. Magee, all of Edmonton, smiling broadly as they started on the great adventure.

ITALY OFFERS CANADA TO U.S. IN PEACE BRIBE

If U.S. Stays Neutral She'll Get Most Of Empire

ROME, Oct. 9.—Premier Mussolini's newspaper Il Popolo d'Italia claimed today that "new heavy blows" against Britain with the intervention of fresh forces are imminent and added British territory in the western hemisphere could go to the United States if she remained out of the war.

The newspaper's military commentator, Mario Appelius, said the United States must choose among three decisions:

1.—To remain neutral until the destruction of the British empire has been effected and to take its place among its natural heirs, Canada, Newfoundland, the Bahamas, Bermuda and Jamaica as it "expects."

2.—To continue to aid Britain without intervening in the war and find itself in an "inferior diplomatic position" when the British empire is "split up" at a peace conference, as well as its future trade agreements.

3.—To enter the war "knowing she is not militarily ready and meet all the consequences of defeat."

The final course, Appelius argued, would be "suicide."

If the United States remains neutral, the commentator went on, she might also get Australia and New Zealand, while British dominions would go to Guatemala, British Guiana to Brazil and the Falkland Islands to Argentina.

Hoare's Dispatches Sent From Rumania Are Lost En Route
LONDON, Oct. 9.—Investigations are being held here into a mishap of diplomatic dispatches from Sir Reginald Hoare, British minister in Bucharest.

It is understood that at least 12 reports relating to German troops ready to enter Rumania have been lost through Zurich, Switzerland.

To Pay Benefits
OTTAWA, Oct. 9.—Under an agreement signed Tuesday on the subject of the "British Commonwealth" the Dominion government will pay workers' compensation benefits to employees of the United Kingdom government engaged in Canada.

Pacific Fleet Reinforced By 4,200 New Men

Navy Secretary Denies Knowledge Of War Date, But Reveals Plan To Secure 31 New Auxiliary Ships

WASHINGTON, Oct. 9.—At a press conference filled with questions about the tense far eastern situation, Navy Secretary Knox said today that the United States fleet, now on duty in the Pacific, would be brought up to full strength immediately by the addition of about 4,200 men.

The additions, he said, will raise crews of the warships from 85 per cent to 100 per cent of their theoretical strength. Knox said also that the navy is "preparing for the acquisition of 31 additional auxiliary ships."

He was asked whether the administration feared war with Japan in 15 days and promptly replied: "I don't think anybody knows," he added. He replied "no comment" when asked about Admiral Harry E. Yount, former commander of the Asiatic fleet, had said in a speech last night, "we may be better prepared for a showdown with Japan now, while she will be bogged down in China, than we will be in 10 days from now."

After a particularly heavy burst of the "artillery" war planes, flying lower than the others, turned off the searchlights, the coast—probably damaged.

The afternoon sun had cleared away the clouds, but the raiders in their first daylight follow-up to overnight assaults in which heavy bombs smashed an air raid shelter and three wings of a hospital, leaving 100 patients.

None in the hospital was believed to have escaped either death or injury. Eight persons were killed in the shelter and an undetermined number in the hospital.

Later in the afternoon a few bombs were heard in London while over one section of the capital a German raider, caught in the full blast of anti-aircraft fire, was broken to pieces.

GROUP INTERCEPTED
A large formation of attackers crossed the channel coast, and, owing to a shortage of fuel, they were intercepted a short way inland by fighters.

In raids that seemed aimed directly at the coast, two of three raiders striking at one southern point.

400 TRAINEES GET WELCOME AT RED DEER

Continued from Page One

Following the official welcome the men were placed in sections alphabetically by first name, and then the medical officers examined the registration men to see if their own beds where they receive their uniforms, go into the showers and then to the mess hall for dinner.

The permanent staff at the centre had their hands full on Tuesday evening and night when persons of men arrived a day ahead of schedule. Several bus loads came in and individual and smaller groups brought the Tuesday morning trainees to the centre. The staff had no waiting of these arrivals but they were taken care of.

More men will arrive during the day to bring the total to nearly 400.

TOKYO PRESS WOULD BOMB BURMA ROAD

TOKYO, Oct. 8.—The Tokyo press estimated today that Japan will close the Burma road with Chinese if Great Britain, excepting this "backdoor" route linking China with vital sources of war materials.

Newspapers said the Japanese now are ready for direct action.

Britain will reopen the Burma road, Oct. 17, Prime Minister Churchill announced in the House of Commons in London yesterday.

The Japanese newspaper, Nichi Nichi said that "further words are unnecessary" because Japan already has explained to third powers her determination to eliminate the supply routes of Great Britain.

"Japan need no longer conduct any diplomatic negotiations with Britain," Nichi Nichi said, "the effect of stabilizing Japanese forces in Indo-China should now be displayed."

Yomiuri commented in a similar vein.

The Burma road, built after Japan had succeeded in seizing most of a sea route from Chungking, a 2,000-mile route from Chungking, provincial China capital, to Rangoon, in British Burma, which has a common frontier with Indo-China, Japan's acquisition of India's oil bases has shortened by some 350 or 400 miles the distance which her bombers would be compelled to fly in an attempt to cut the road.

Canada to Build Up Combatant Strength Worthy of Her Task

MALTA HEAVILY BOMBED WITH SMALL DAMAGE

Italy Sends 150 Air Attacks
Against Rocky Island

Fortress
British Empire's Main
Base in the Mediterranean

VALETTA, Malta, Oct. 8.—Italy has hammered 150 air attacks against this rocky island fortress since her entry into the war, I found today, taking a toll of about 200 killed and 100 wounded.

I am the first representative of any news organization to be allowed to tour the bombed areas of this island, the main base of the British Empire's main base in the Mediterranean.

Despite the incessant Italian attacks I can report that the spirit on the island is still high and that the fortress' power to defend itself has not been shaken.

Some 200 persons have been bombed out of their homes, but they have found safe shelter in the tunnels and caves hewn in the rock five centuries ago by the Knights of St. John.

EIGHT DAILY RAIDS

The Italians began their attacks by launching an average of eight raids a day against the island. That went on for a month. During the second month they slowed down to about four daily raids. There has been only one interruption in the attack. During one period of eight days no Italian planes came over.

The Italian attack has cost them a steady stream of planes and airmen. The Italian losses were estimated at 35 planes and 40 pilots.

During the bombed areas and the air raid shelters I saw scenes that recalled vividly the havoc wrought in Spain by Italian flyers during the Spanish civil war.

I was told that on some occasions as many as 60 planes have attacked the rocky fortress, which has an area of 90 square miles and is insulated by some 250,000 persons.

FLY HIGH

The Italians usually come over at a height of about 10,000 feet. At that altitude they can not be heard from the ground. Only rarely do they attempt dive-bombing tactics.

Ironically enough the first bomb to fall on Malta dropped near the magnificent old stone gateway of the Porte Des Bombes at Valetta. It fell June 13 and made a crater in the street two feet deep and six feet across. Two persons were killed by that bomb. A nearby government power station built of solid blocks of Maltese stone was hardly jarred by the explosion.

Bomb Splinters

By DOUGLAS AMARON

LONDON, Oct. 9.—Bomb splinters from the battle of Britain.

Have you heard the story of the London girl who presented her boy friend with a white feather when he joined the army this week?

Spitball. The blast of a bomb blew a housewife across the kitchen floor. She ended up with her face stuck in the trifle she was making for dinner.

Some London restaurants have started a scheme for dinner and bed for the night at an inclusive price. In one restaurant the waiters have been converted into strong quarters and equipped with comfortable mattresses.

Harold Harrison, keeper of the Old Bailey since 1907, was killed at his suburban home during a recent raid.

A famous London tavern, windows shattered by a bomb explosion, has the following notice posted at the front door:

"Open as usual."
The little tea and coffee shop next door, not to be outdone, announces cheerily:

"More open than usual."

Another appropriate sign hangs in the window of an undertaker's shop. It reads: "It is our pleasure to do business with Germans and Italians."

An East Ham firm of wood merchants has sold 2,000 window frames to East London residents who need no banks for Anderson shelters. The frames cost 5d originally but were sold for sixpence each and half the proceeds were turned over to a splinter fund.

Convicted of stealing five shell-lings worth of "souvenirs" from a cottage destroyed by a bomb, Miss Betty Bogg was fined 15s (£22.50).

A 12-year-old Girl Guide donated her baby brother to a ditch and jumped the green cover him when enemy planes overhead interrupted their walk.

She came out of the public shelter and saw that her brother had been demolished by a bomb. "C'm," she murmured, "I haven't taken shelter. I would have been blasted to matrimony."

IMPERIAL WAR CABINET NEED IS ADVOCATED

More Urgent Than Ever
Declares Peer—Australia Willing

By J. F. SANDERSON
Canadian Press Staff Writer

LONDON, Oct. 9.—An Imperial war cabinet, representing all parts of the British Empire, was urged in the House of Lords Tuesday by Viscount Elibank.

He suggested such a cabinet is more necessary now than ever in view of Japan's adherence to the axis, which he said has changed the whole complexion of the Far East and involved Australia and New Zealand more directly in the war.

During the last month there has been an increasing number of suggestions by public men and different publications that the basis of the war cabinet be changed to give the Dominions representation.

There has been no official comment and the Canadian Press understands the British government has made no approach to the subject.

NATIONS CRUSHED

Conquered by the new empire, completely. Poland has fallen. Norway, Holland, Belgium and Denmark are under the German thumb. Suffered all, France, one of the great bulwarks of freedom, has been crushed by the Nazi hordes.

Only England stands against the power of infamous aggression, only England against a regime which numbers among its subjects 120,000,000 people, with 80,000,000 more in the lands of the conquered, he said.

Yet to say that she stands alone is not the whole truth, he insisted. The hearts of millions beat in sympathy with her and her resources and her materials are poured into her. She has moreover young associates overseas, nations which have risen of their own free will and choice in the defence of freedom. Already thousands of men had crossed the sea, thousands more were in training and still more thousands were ready to offer their services and their lives on the altar of freedom.

What an account of themselves British sailors and airmen have given, declared the naval minister, referring particularly to the battles of Montevideo, Narvik and Dunkirk, such a tremendous miracle of all.

"In all the long history of war, there has been nothing to equal the heroic feat of arms," inquired the minister. "If there is, it can only be the feat of the Royal Air Force which, though grievously outnumbered, has come through the ordeal of the past weeks without once faltering and without complaining."

At the start of the war, Canada had only 4,000 men on active service but now, she has more than 165,000, said Mr. Macdonald.

In the next 12 months, 300,000 would receive a month's training and become accustomed to soldiering. Thus by next year, the land forces alone would number almost half a million men.

In the Royal Canadian Air Force there were in September, 1939, about 4,000 men, now there are 25,000, he told his audience. This includes the three Canadian squadrons already sent to sea.

The minister praised Sgt. Ldr. Ernest McNabb, son of Saskatchewan's lieutenant-governor and one of Canada's leading airmen in England, as "an officer worth 15 German any time."

NAVAL FLEET GROWS

As for the Royal Canadian navy, its total personnel at the outbreak of hostilities had been 1,774 all ranks and there were more than 12,000, he said. From 13 vessels, the fleet had increased to 138 in 100 more to be added in the next year. By April 1942, Mr. Macdonald predicted, the total personnel of the navy will be 23,000 men.

Commenting on the work of the blarney, the minister cited the case of the Restigouche which had so distinguished herself in European waters. He said that in 100 days, she steamed 30,000 miles, an average of about 11 miles an hour for 24 hours of every day, an achievement which had earned the applause of the highest British naval authorities.

"We cannot rely on the United States to defend this country if we do nothing to help ourselves," he warned. "We are going to build a navy, an air force, an army adequate to a great cause. We are pledged to defend, and working at a pace which will enable the little trading nation of the world."

World's Wheat Crop Is Reported Lower Compared To 1939

ROME, Oct. 9.—The International Institute of Agriculture estimated last night the European wheat crop, exclusive of Russia, would total about 1,425,000,000 bushels, compared with the 1939 estimate of 1,565,000,000.

Reporting its most recent information confirmed crops in Romania, Hungary, Yugoslavia and Bulgaria were about one-third off the 1939 level, while those in the Balkans, the Middle East and the Soviet Union were about one-half off.

The institute said that the 1939 European wheat crop was 1,565,000,000 bushels, compared with the 1938 estimate of 1,425,000,000.

INSURANCE FOR WAR DAMAGE IN GREAT BRITAIN

LONDON, Oct. 9.—A vast, nationwide compulsory insurance plan to provide compensation for war damage in Britain was announced Tuesday by Prime Minister Churchill.

A bill providing an appropriate charge on the capital value of buildings of all kinds is being completed by the government.

"We also propose to provide insurance against war damage in all forms of movable property, such as motor vehicles, machinery, household effects and other personal possessions not at the present time covered by insurance," he declared.

"Everyone can be sure that compensation will be made in one form or another at the end of the war, if not sooner."

JAP ARMY MEN MAY NOT WAIT TOKYO ACTION

SHANGHAI, Oct. 9.—Foreign observers expressed anxiety today that Japanese army leaders in China, regardless of Tokyo's attitude, should decide to take action over Great Britain's decision to re-open the Burma road.

Should Japanese militarists take the matter of retaliation into their own hands these observers said, serious developments might be expected at Hong Kong. British reserves of arms in China's south-east coast, including that both Japan

FIVE INJURED IN AUTO CRASH AT CROSSFIELD

Five persons are lying injured in Calgary hospital, following a head-on collision at the crossroads at the north end of Crossfield, which occurred about one o'clock on Sunday morning.

Those in hospital are Eugene Wickerson, son of Mr. and Mrs. G. W. Wickerson from the farm near Crossfield, with severe internal injuries, Miss Edna McKinnney with a broken leg, Robert White, Miss Rose and Henry Newbauer of Penhold, extent of whose injuries is not yet known. Three others, Hugh Wickerson, Reese Jones, and Michel Michalski, escaped with a severe shaking up and minor injuries.

Hugh, Eugene, the latter driving their Ford V-8 light delivery truck, and John McKinnney in the cab with Jones, White, Michalski and Rose in the back, were going home for a house in Crossfield, after they caused the intersection of the highway and the east road, at the north end of town, a V-8 coach, driven by Henry Newbauer of Penhold, heading south, struck them head-on, hurling the truck into the ditch on the opposite side of the road.

Miss McKinnney had her leg broken and Hugh Wickerson was thrown from the cab into the ditch, and was unhurt. First aid was rendered by Dr. D. A. Whillans, M.R.C.S., and Dr. C. Cameron, who is in-charge of the hospital.

TOKYO PAPERS TAKE HOSTILE VIEW OF BRITAIN

Decision To Re-Open Burma Road Angers Japanese Press

TOKYO, Oct. 9.—Japanese newspapers indicated today that bomb-throwing at London, which has been going on since the Japanese government announced its decision to re-open the Burma road to China, was a hostile view of Britain.

The press generally attempted to minimize the effect of reopening the Burma road to China, which has been going on since the Japanese government announced its decision to re-open the Burma road to China.

A Tough Hombre.

"Oh, Sonny!" she cried shakily. Sonny? Guilty, I know! How—how could I help doing anything you wanted me to?"

"I don't know, honey," admitted Sonny hungrily, managing to get his unbanded arm comfortably loose about her. "I had a lotta trouble myself, always havin' to do that I wanted myself t' do. An' right now I'm just achin' for yuh

"Take It, Kid—And Happy Landing"

President Roosevelt recently told America—and the world—that "Today 50,000 young Americans are licensed fliers, and the number is growing by almost 2,000 a month." Here's one of the youngsters the President had in mind—getting the thrill of his fledgling life, the "thumbs up" signal from his instructor, indicating he's on his own for his first solo flight. Photo taken at Randolph Field, Tex., shows Flying Cadet Paul Epperson, of Pasadena, Calif., and Lt. C. C. Pratt, of Knoxville, Tenn.

Canada Honors City Of Flint Crew

Loring C. Christie, Canadian Minister to the U.S., left, presenting to Admiral Enory S. Land, chairman of the U.S. Maritime Commission, a silver plaque which gives official recognition to the gallantry displayed by the personnel of the S.S. City of Flint in rescuing survivors of the torpedoed S.S. Athenia on September 3 last year. The presentation took place in Washington.

Official Ensign Of The R.C.A.F.

An R.C.A.F. ensign has been designed to provide a distinctive flag for the Royal Canadian Air Force. The new ensign was designed at R.C.A.F. headquarters and will be flown in Canada and overseas any place where the R.C.A.F. is stationed. The main part of the flag is sky blue, with the Union Jack in the upper left-hand corner. The outside circle is dark blue with a white bullseye and a red maple leaf in centre.

Canada's Sailors Take Over U.S. Destroyers

Officers and men of the Royal Canadian Navy marching in single file along the docks of an eastern Canadian port as they took over the destroyers acquired from the United States recently. Six of these ships now fly the white ensign.

Canada's Fighting Airmen Visited By King And Air Marshal Bishop

Canadian airmen who form the Canadian squadron of the Royal Air Force were inspected recently by the King, left, who is pictured shaking hands with the airmen during his inspection. Air Marshal "Bully" Bishop, whose name was a household word for bravery and gallantry during the last war when he shot down 20 German planes, is pictured, right, chatting with Squadron Leader Ernest McNish, who, with his squadron of fighters, has been carrying on the great traditions of Canada's fighting airmen.

President

R. E. NORRIS, Montreal, formerly managing director of the Associated Screen News, who has been made president and managing director of the film company's Canadian branch, according to an announcement of the board. Mr. Norris is quietly associated with the growth of the motion picture industry in Canada.

It's Margie

Press agents being notorious practitioners of the old army game, it's no surprise that beautiful Margie Hart, burlesque queen, was "worried" that national goodnight might get lonely during Year's active duty. She sent Maj. Gen. William Haskell, New York commandant, 3000 autographed copies of her photo, asked him to distribute them to his troops. She specified "bachelors only."

"Invading Forces" Successfully Repulsed By Camp Borden Forces

Designed to test the efficiency of Canada's streamlined army, 5,000 troops and 450 motor vehicles streamed out of Camp Borden in three columns when word was flashed that "invading forces" were attempting to force landings on the shores of Lake Ontario and Lake Erie. The manoeuvres were carried out on a carefully planned schedule and commanding officers expressed themselves as highly pleased as the manoeuvres were carried out without a hitch. To approximate actual war conditions as nearly as possible, the mechanized forces were directed along poor country roads whenever possible. Lieutenant-Col. H. B. Duthie, upper left, O.C. the Irish Regiment, lower right, is shown as he critically watched his men going along. Motorcycle dispatch riders and scouts, upper centre, accompanied each of the advancing forces. At left, the Irish were greeted by Walter Henry Crosby, 91, upper right, who is of U.E.L. stock and whose mother came from Dublin. Divisional headquarters kept in constant communication, by telephone, radio and dispatch riders with the three forces. Checking at a cross-road, lower left, Col. S. A. Lee, Major-General R. O. Alexander, Col. McGee and Col. J. K. Lawson.

Singapore—Suggested Naval Base For U.S. Warcraft

During recent conversations between the British Ambassador to the U.S., Lord Lothian, the Australian Minister, Hon. R. G. Casey and the U.S. Secretary of State, Hon. Cordell Hull, the use of the huge harbor at Singapore as a base for naval ships was offered in the United States. Navy's New Dive Bombers Swoop Into The National Defence Limelight

Headly rolling off the assembly line in quantity are the U.S. Navy's new SRD-1 dive-bombers, some of which are pictured lined up at Santa Monica, Calif. Built by Douglas Aircraft there, the new planes are said to be superior in armament and performance to Germany's famed "Stuka" dive-bombers.

LT.-COL. E. R. KNIGHT, V.D., COL. F. C. JAMIESON, V.D., K.C.
They Command Two Alberta Camps

These officers today start training 2,000 young Albertans under the National War Services Act. Col. Knight is in command of the Camrose camp, where 800 Edmonton and district men will train, while Col. Jamieson is in command of the Red Deer camp, which is accommodated by the Red Deer Hotel. The Grande Prairie camp, under Maj. L. Younger, opens Friday.

Bugle Sounds For Camp Training As 500 Leave Today

The bugle call of National Service sounding throughout Canada was re-echoed in Edmonton Wednesday morning when 500 cheering, eager youths entrained at the C.N.R. station for their one-month of training at Camrose camp under the National War Services compulsory training plan.

A large crowd was on hand to speed the recruits for Canada's army on their way, and as the special train of eight coaches streamed out of the station at 8 a.m., they gave the boys a rousing send-off.

First recruits appeared at the depot shortly after 7 a.m. and from that time on railway ticket clerks were busy exchanging travelling money for railway tickets. During the hour more than 400 recruits were entrained for the camps, the balance being sent off at the C.N.R. downtown office earlier in the week.

NO HITCH IN PLANS

There was not a single hitch in the arrangements, as railway officials and members of the National War Services board worked to get the men on the trains. The carefully laid plans worked like clock-work, and every recruit was on his way to the camps in less than an hour after the scheduled departure hour.

It was a joyous early bunch of lads who went in their first camp from Edmonton. They knew their day of work ahead of them and they were anxious to get going and get it over with. All displayed that spirit of adventure typical of the next. "We don't know what this is going to be like," stated one group. "But whatever it turns out to be, we will be equal to it."

The lads carried their camp equipment in all types of receptacles, but it was apparent that the majority of them had acquired soldier's kit bags as the handiest vehicle to carry their gear.

RED DEER CAMP

At 7:50 a.m. a special train out of Calgary carried more than 500 recruits for the Red Deer camp. This train took only the Calgary contingent, the other recruits being sent off in the afternoon part of the province travelling train in the days to come.

Throughout the province extra buses were put on all routes to accommodate the recruits flocking to training centres, and extra equipment was provided to handle the trains to meet the large contingent on the assembling of 2,000 men, one hundred each at Red Deer and Camrose.

A third camp, at Grande Prairie, will open October 11 with a complement of 100 men. These will be recruited within the electoral division of Peace River.

GREED MUST BE BANISHED SAYS PREMIER

Continued from Page Nine

King and Queen were flashed on the screen in the accompaniment of loud applause the Premier remarked:

"They are the best safeguards we have ever had and they stand for justice and fair play. I feel they would say to their people: 'If your elected governing bodies refuse to give you the things that you need remove them from office.'"

The British Empire and the United States are the defenders of liberty and freedom in the world, the speaker stated. Organization is needed and badly needed though if the people are to avoid great misery and suffering that is inevitable following this war.

MACHINE POWER

Machine power is steadily wiping out jobs, Mr. Aberhart declared, quoting Prof. Soddy who said that 4,000 men with modern farm machinery could raise all the foodstuffs required by the people of the United States. Slides showing the latest types of combines at work in the fields of Alberta, the most modern, almost completely automatic harvesting equipment, vast power generators and factory installations, illustrated the facts as presented by the speaker, who quoted from the report of 60 U.S. investigators recommending that "human production" be present in the U.S.A. world-wide equivalent to a \$4,000 yearly income for every citizen in terms of 1929 dollars.

Quoting again from eminent United States engineering authorities he said, "If an engineer designs a machine which does the work of 100 men, the machine will be built under an avalanche of goods such as a person could not dream of producing."

MONETARY SYSTEM

The present monetary system, he said, is a monetary system and with will power and common sense the present debasing system is rapidly bringing on its own collapse. As all debts create new debts, if their own repayment the result is naturally debt in perpetuity on an ever-increasing scale.

Even in the case of our own legislature, he said, the people of Alberta have paid for the initial capital three times over without wiping out the debt.

This is of course due to the bond quality of interest, the Premier commented.

In closing the speaker said he had little patience with those who deplored "changing human nature."

The speaker said he was not a pessimist. The human race has always been bound to the power of money. When human beings are truly free they will observe the best qualities of the human race.

SAME WITH HUMANS

It is the same with human beings, Mr. Aberhart said. The human race has always been bound to the power of money. When human beings are truly free they will observe the best qualities of the human race.

Mr. E. C. Manning, minister of education, introduced the speaker and urged greater zeal in organization, work, and social service, as well as the end of the Social Credit league year.

Some 1,000 men from points in southern Saskatchewan and northern Alberta were on hand to see the train off during the day. Some recruits already had arrived at Regina last night from varying distances.
